THE INDISPUTABLE CHARISMA OF GEORGE BUSH

The 43rd Prez is considered to be the worst president of all time by about 40% of the US population. Yet the former Times Magazine person of the year is a figure admired the world over for his eloquence and charismatic nature. Listed below are some of his most inspirational quotes:

“There’s an old saying in Tennessee- I know it’s in Texas, probably in Tennessee- that says, fool me once, shame on you. Fool me- you can’t get fooled again”

“They misunderstimated me”

“Families is where our nation finds hope, where wings take dream”

“People calling Denison, “denny” never stop thinking about ways to harm our country and our people, and neither do we”

“The World Health Organization has confirmed that the newest UK Covid variant is purely simply a reaction to Brexit.

“The political developments of the country led to the virus developing a different variant. As the country officially withdrew from the European Union, the virus followed the United Kingdom and is now refusing to spread in the European mainland”.

EDITOR’S NOTE: The legitimacy of some of these quotes is dubious at best

WISDOM

A GREEK NATIONAL GUESSES THE UNITED STATES EXCEPT HE GETS EVERYTHING BUT KANSAS CORRECT AND IT ISN'T FUNNY

UNPOPULAR ASTROLOGY TAKE

I don't really believe in or pay attention to astrology, but I'm an Econ major so I don't think it is fair to make fun of people who believe in things that are totally made up. But with that being said, I'd like to share with you all the most unpopular take I have regarding astrology.

Basically, if you were a C-section baby I don't think you should have a star sign. C-section babies take out about half of the chance behind when you're going to be born. I don't even believe C-section babies were born, which is why my friends and I celebrate our friend Alec's "Removal Day" instead of a birthday. His mom is in on the joke, which is why the last few years she has gotten him and his twin brother a cake that says "Happy Removal Day" iced on top of it. But a c-section is a planned procedure scheduled by your parent(s) and a doctor based on what worked for their schedule (I know that emergency c-sections are a thing but I'm gonna ignore those for the sake of my argument).

But if you are a C-section baby and you believe your horoscope, you are understanding your life and even sometimes making decisions based on a medical procedure. The only time you should make decisions based on medical procedures is if your doctor tells you not to eat before a colonoscopy, not because you wound up becoming a Gemini.

To all the C-section babies out there who believe in astrology, I'm sorry but you're just going to have to delete Costar right now. I feel bad that you all have been falsely associating yourselves with different zodiac signs. If you need something else to supplement your horoscope addictions, just call the doctor that brought you into this world and ask him or her questions about your life. I think that all doctors who perform C-sections should be obligated to do this to all their patients to make up for the fact that they stole from them the chance to be born with a zodiac sign.

PS: To any C-section baby that is turning another year older soon: happy Removal Day!
