BULLSHEET GOES BANKRUPT!

Well, folks, it looks like the end of an era. Last night, one of our editors (who will go unnamed) drunkenly ordered \$3,165.92 worth of guns, ammo, and live cockroaches. While they have been safely detained and now remain in federal custody, the government has decided to repossess all of our belongings.

Currently, the remaining Bullsheet staff has been reduced to the bare necessities. I write to you from an empty office with nothing but scrap paper and pens I managed to scavenge during daylight (all staff has been placed on watch with curfew.) Handwriting the Sheets will be grueling, but the grip that this organization has on me and my family... Lets just say if an anonymous donor decided to take pity, it could save some lives. God willing.

Pray for me.
