HOW TO CATCH AN ANIMAL WITH YOUR BARE HANDS: PART 2 -- THE SEQUEL, LOST IN NEW YORK

Will Kelsey & Blythe Dahlem,
Animal Enthusiasts

Some people have asked us what’s the meaning of our article as per April the 14th, 2021. I would tell them we will lay out the truth, the bear truth, and that is how to truly, *truly*, catch animals with your bare hands. Before we tell you how to catch the animals, we first must recap how our last article went: if I recall correctly, it was something about our grandparents-we all have the same grandparents because they really get around (have a lot sex) and if you remember correctly our ingredients for the prior trial were a jar of peanut butter and Target *Wolverine* claws (the X-Men, not the animal.)

Well *oooooobviously*, to catch an animal with your bare hands, you need to find a wild animal. Second, make sure Buddy Holly by Weezer is playing. You know, the one that goes “ooooo-wee I look just like Buddy Holly.” You know, I never really liked Weezer. The band name kind of sounded like an old person gasping for their last breath. Like, they’re wheezing. You don’t think about four guys standing in a room. You think about your grandma Annie-Sue. Grandma Annie-Sue once caught a bare animal with her hands. That’s the simple truth. Times were simple back then, before the depression. That was about four years before the relationship that ended up with Ellie being created. Bless her heart.

Anyway, so about grandma Annie-Sue. She was legitimately the best one i EVER met. Her gingerbread castles...wow-wee. She’s the one I think about on International Women’s Day. Now you all know about gingerbread houses. Grandma Annie-Sue.... damnnnn it was a work of art. Now that old lady could take a humble abode and turn it into a real palace. I don’t know anyone more versed in 17th century French architecture than that lady. Now you wouldn’t expect a humble Tennessee gal raised in a Mennonite household...now I don’t know what she knew about the French but she was a master in her art.

Maybe that’s what we learned about catching animals with her bare hands. They say that art transfers from the soul. Grandma Annie-Sue was a master of the soul. Our souls have always spoke to art. There’s something in it that resonates with us. Chicken soup of the soul. Jazz soul music, you know--Brooklyn and, whatever. But there aren’t many wild animals in Brooklyn.

You think of wild animals and think raccoons or rats---do they count as wild animals or are they some sort of weird domesticated New York level species, you know? I know someone who once domesticated a porcupine. What do they eat? Pine bark or something? Come to think of it, I have no idea how they caught the porcupine. Presumably with their bare hands? That would make sense but it probably hurt.

See, the thing about catching animals with your bare hands is you have to do it with your bare hands. That requires a certain level of sacrifice. To catch animals with your bare hands, you need to lay your soul bare to them. Like you’ve never laid your soul bare to any creature in the world. Like you’ve seen grandma Annie-Sue bare. You know, that once time you accidentally opened the door when you shouldn’t’ve. Anyway, let’s get down to the nitty-gritty. This is how you catch animals with your bare hands.
