BEER EVALUATIONS

Anonymous,
Beer Expert

Last week I was in Common Grounds getting my first dose of caffeine for the day when I happened to pick up a Bullsheet article. At the bottom of the page, the head writer, Mick Smith, boldly claimed that Guinness is the greatest beer ever made. I happen to share a similar opinion with my great friend, however, the divisiveness of the claim could create conflict on this hill of great beer drinkers. As a Cervaza connoisseur and beer expert, I wrote this list of the most commonly consumed beers and beverages on Denison's campus. The beverages listed are in no particular order, but my thoughts on these beverages are irrefutable. If you disagree with my expert analysis, you will have to take your complaints to my lawyer.

1. Guinness

Gods piss in a pint. The best thing to do on a Monday night is to pour yourself one (or 8) nice chilled pints of Guinness. Mick owes me a pint.

2. Busch Light

Frat party classic. The only way to effectively drink Busch light is to poke a hole in it and do what the frat kids do “Shotgun time!”

3. Coors Light

Best of the cheap beers, if only they sold them in 30 racks.

4. Budlight

I don't know why this very average beer was in the news recently.

5. Budweiser

Pretty good if you want to gain some weight.

6. Miller Lite

People always hype up this beer and I have no idea why. There are many better beers in the price range, especially because Miller is the definition of mid.

7. PBR

Freshmen seem to love this stuff at The Lot. In general it tends to be a pretty trash beer, thank god it's only \$10 on my meal plan.

8. Stella

Only If I need to quickly restock my beer supply at Silverstein. 5 of these will do a lot to your liver so be careful. Very overrated beer.

9. Natty Light

Literally water, but give a frat guy 10 of these bad boys and he will finally learn how to talk to people.

10. Natty Ice

Whenever things get bad, head down to the gas station and pick up a pack of light blue American spirits and a tall boy Natty Ice.

11. Modelo/Corona

I don't know why people don't drink more Modelo. The good thing about it is you can drink 10 of them and still make it to work the next day. Corona is for white people who are too racist to drink Modelo. Overall quality cervezas.

12. IPA

Your "trendy" dad has corrupted your soul. Only people over the age of 35 should be allowed to drink IPAs. They do slap though.

13. White claw

Beer for gluten-intolerant people.

14. Highnoon

Better White Claw, too bad it's too expensive for the college wallet.

15. Cider

Beer for gluten-intolerant people who are tired of White Claws and wine. My brother loves the stuff but he's a loser with terrible taste.

16. Wine

People who drink wine think they're fancy, however, you always see them breaking down in tears at the end of the night with 3/4 of the bottle left in their hand.

17. Any mixed drink

Drink a beer, you coward.

18. BORG

I can't blame older generations for making fun of Gen Z when we do things like this. Fun until you get MONO from passing it around all night because it tastes like crap.

19. Soda

Please stop drinking soda in the dining halls. It's actually really bad for you.

Disclaimer: This guide is only for students over the age of 21. If you are younger than 21 go to Europe to drink (We don't want you here anyway).
