MY LOVE LETTER TO DENISON'S MUSIC SCENE

Mick Smith,
Drummer

Before coming to Denison I knew that I wanted to be in a band at college. I had been in a band or two before I came to Denison, but I was excited for “the college band experience”. For some reason I had it in my mind that Denison was thriving with independent campus bands. When I got here I learned that I was wrong. My first semester was during the pandemic and it was hard for anyone to do anything, especially be in a band. On top of that, there weren’t many bands on campus before the pandemic either. The only word of a music scene I got was a small show outside of Lamson lodge from a band called Left on Red. This would be their one and only show. Yet, they did show that it was possible to play music on campus, and that there was some sort of demand for music. Before Left on Red’s first show, I met a student named Lula. She was interested in forming a band, and is the most fascinating person I have ever met. After this, we got Jack and Dith, both juniors at the time, to agree to join our band. We practiced only a few times before Jack and Dith got Covid. We didn’t play for the rest of the semester. The next semester we hit the ground running and played two shows. We played the Delta Chi fraternity and Doobie Palooza. After that the rest is history. We added Harrison and Claire the next semester. After Jack and Dith graduated, we added Fallon, Parker, and Allie. I’ve been playing with The Cuties since I was a freshman, and I have loved every second of it. Outside of The Cuties, I have played with other bands and projects. I’ve had the pleasure of working with Ben and Evan in our band Waco, which has been one of the best musical experiences I’ve ever had. I’ve gotten to act like a complete idiot on stage with the fantastic gentleman of the Ohio Truckers Union. Our band gave me hearing loss and fantastic memories. I joined Runner and Bobby from working with Parker in The Cuties, which has given me the ability to pursue music after college. All in all, I have loved the music I have been able to create on campus. But more importantly, I have loved the people that I have met through playing music. The reason I’m writing this article is to put this into writing at least once: Thank you Denison’s music scene. Playing music has sculpted my college experience. I have not only enjoyed playing music but also watching other students express themselves creatively. I have loved watching bands like Third Grade, The Overalls, DOGHOUSE, The Ben and Harrison Show, Cat Eat Cat, The Roster, whatever crazy band Lewis can throw together before a gig, and so many more. All of these people have brought something really special to this campus. Thank you all so much for what you have done for my college experience, and please don’t stop playing. One final note, if you are reading this and are thinking about starting a band. Do it. Reach out to bands on campus and they will help you find people to start a band with. I’ve spent so much time helping others with finding gear, meeting other musicians, and setting up gigs. All of the other people in the scene will do the same for you. Start a band. I promise it will be awesome.

GOODBYE BULLSHEET

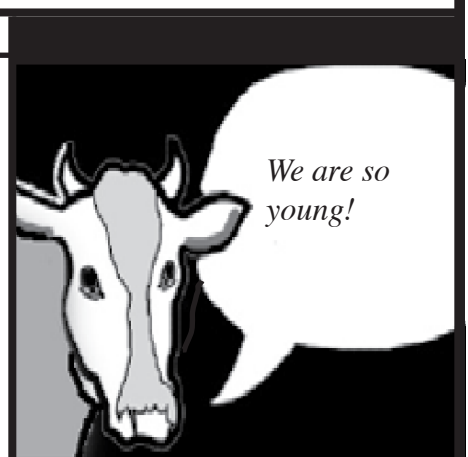

It has been a fantastic run. Rock and Roll will never die.
