

## TRENDS TO BRING BACK PLS

Brin Glass,  
Drop the bass

**Guys!!! Why did we bring back the bucket challenge when these old ones from the 2010s are so much better!!!**

- Shoving a spoonful of cinnamon down your gullet.
- Chugging a liter of Sprite and chowing down on a banana.
- Eating jellybeans that taste like vomit and earwax.
- Placing a small layer of salt on your skin and pressing down on it with an ice cube to burn the shit out of yourself.
- Chubby Bunny challenge when you shove marshmallows in your face hole.
- Chugging a whole gallon of milk and throwing up everywhere.
- Eating such a hot pepper that you send yourself to the hospital.
- Snorting a condom through your nose and pulling it out of your mouth.
- Planking.
- Biting into a tidepod and letting it bust open in yo mouth.
- Rubbing one of those fleshy pink erasers on the back of your hand and pulling your skin off.
- Filling a condom full of water and dropping it on someone's head so it looks like their head is in a fish bowl like that character in Mega Mind.

**The moral of the story: Let's get back to challenges where the sole purpose is hurting yourself for clout.**

## QOTD!
